#### INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference	FOR FURTHER	cea E	OFF DCTASA (220		
96700/955	ACTION	as well as, when	orm PCT/ISA/220 e applicable, item 5 below.		
International application No. PCT/US05/13222	International filing date (day, 20 April 2005 (20.04.2005)	month/year)	(Earliest) Priority Date (day/month/year)		
Applicant			21 April 2004 (21.04.2004)		
ALBERT EINSTEIN COLLEGE OF MEDICINE OF YESHIVA UNVERSITY					
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.					
It is also accompanied by a copy of each prior art document cited in this report.					
1. Basis of the Report	- y a topy of out in prior art do	carreit cited III	tius report.		
a. With regard to the language, the	international search was carrie	dout on the busi	in of		
	application in the language in w				
, ,					
a translation of the international application into, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b))					
b. With regard to any nucleotid	e and/or amino acid sequenc	e disclosed in th	e international application, see Box No. I.		
2. Certain claims were found unsearchable (See Box No. II)					
3. Unity of invention is lacking	g (See Box No. III)				
4. With regard to the title,					
the text is approved as submit	tted by the applicant.				
the text has been established	by this Authority to read as foll	ows:			
			, and the second		
5. With regard to the abstract,			}		
the text is approved as submitt	ed by the applicant.				
the text has been established, a	the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box No. IV. The applicant				
may, within the Hollin Boll (n	e date of mailing of this intern	ational search re	sport, submit comments to this Authority.		
6. With regard to the drawings, a. the figure of the drawings to be published with the abstract is Figure No					
		ure No			
as suggested by the ap					
as selected by this Aut	hority, because the applicant fa	ailed to suggest a	a figure.		
as selected by this Aut	hority, because this figure bette	er characterizes t	the invention.		
b none of the figures is to be publ

#### INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/13222

Box No. II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)		
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:			
1.	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:		
2.	Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:		
3.	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).		
Вох №. ПІ	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)		
	onal Scarching Authority found multiple inventions in this international application, as follows: ontinuation Sheet		
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.  As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of any additional fees.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:		
4. X	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: 1-5,18,19,29,30,33,34 and 37-40  rotest

# PCT/US05/13222 BOX III. OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In order for all inventions to be examined, the appropriate additional examination fees must be paid. Group 1, claim(s) 1-5, 18, 19, 29, 30, 33, 34, and 37-40, drawn to powdered hemoglobin. Group 2, claim(s) 6-17, 31, 32, and 41-44, drawn to method of preparing powdered proteins. Group 3, claim(s) 20-23, drawn to method for preparing blood substitutes. Group 4, claim(s) 24, 25, 35, and 36, drawn to blood substitutes. Group 5, claim(s) 26-28, drawn to method of treatment. The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the powdered hemoglobin of Group 1 is anticipated by DAS et al. (US Patent 3,964,865) who teach lyophilized or powdered hemoglobin. Therefore, Group 1 lacks a special technical feature and is distinct from Groups 2-5.
